Alex Morgan
Full Stack Software Engineer
alex.morgan@example.com | (555) 382-9012 | San Francisco, CA | linkedin.com/in/alexmorgan-dev | github.com/alexm-dev

PROFESSIONAL SUMMARY

Results-driven Full Stack Engineer with 4 years of experience building scalable web applications, RESTful microservices, and interactive user in

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, SQL
Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, Vite, Webpack
Backend: Node.js, Express.js, REST APIs, GraphQL, Socket.io
Databases: MongoDB, PostgreSQL, Redis, Mongoose, Prisma
DevOps & Tools: Docker, Git, GitHub Actions, AWS (S3, EC2), Jest, Postman

PROFESSIONAL EXPERIENCE

Software Engineer | CloudScale Solutions | San Francisco, CA
June 2022 - Present
- Built features for an enterprise B2B SaaS dashboard used by over 45,000 monthly active users.
- Worked on backend API endpoints in Node.js and Express to process customer reporting analytics.
- Improved frontend load times by implementing code splitting and caching with React Query.
- Participated in weekly agile sprints, code reviews, and mentored 2 junior developers.
- Fixed database query bottlenecks in PostgreSQL, reducing query latency by 35%.

Junior Full Stack Developer | Apex Tech Labs | San Jose, CA
August 2020 - May 2022
- Developed responsive web interfaces using React.js and CSS modules according to Figma mockups.
- Assisted in building authentication flows with JWT and bcrypt.
- Created unit tests with Jest and React Testing Library, achieving 80% code coverage.
- Helped maintain MongoDB database schemas and created aggregation pipelines for user reports.

NOTABLE PROJECTS

DevCollab - Real-time Collaborative Code Editor
- Developed a browser-based collaborative editor utilizing WebSockets, Monaco Editor, and Node.js.
- Implemented real-time syntax highlighting, operational transformation for multi-user editing, and room management.
- Deployed frontend to Vercel and backend microservice to AWS ECS with Docker containers.

TaskPulse - Agile Sprint Tracker & Productivity Suite
- Created a Kanban board productivity application using Next.js, Tailwind CSS, TypeScript, and MongoDB.
- Integrated drag-and-drop task workflows, automated email notifications, and role-based permissions.

EDUCATION

Bachelor of Science in Computer Science
San Jose State University, California | Graduated May 2020
